## INSTRUCTIONS

1. Use a fan brush to apply 1 coat of Mississippi Mud all over the piece, making sure to get it in the creases and crevices. Allow it to dry for a couple of minutes.
2. When the brown is no longer shiny it is ready to wipe. To remove the excess paint, dip the sponge quarter in water and squeeze it out. Wipe the sponge across the surface of the gnome. We want the brown to remain in the creases and crevices but be mostly removed from the raised areas.
3. Use a small brush to apply two coats of Beachcomber to the hands and nose.
4. Apply one coat of Snowflake to the beard and mustache using a medium brush.
5. Next, thin down the Banana Boat paint with 70% paint and 30% water. Use the medium brush to apply 2 coats to the hat.
6. Thin down the Turquoise paint with 70% paint and 30% water. Use the medium brush to apply 2 coats to the shirt.
7. Next, thin down the Indigo paint with 70% paint and 30% water. Use a medium brush to apply 2 coats to the pants and the soles of the shoes.
8. Finally, thin down the Olive You paint with 70% paint and 30% water. Use the medium brush to apply 2 coats to the band on the hat as well as the tops of the shoes.

## TIPS

- When you're wiping the excess brown paint off, rinse the sponge regularly to get the best results.
- By only doing 2 coats of the colors, the Brown will shine through after firing, creating an outline.
